

CACCOONWORLD®

DESIGN · CURVES · RELAX · ADVENTURE · FUN

The idea for the Cocoon was sparked by nature while enjoying a Mexican holiday.

During a jungle trek we came across a colony of Weaver Birds building their tiny hanging nests.

We were immediately struck by their unique beauty. They were so peaceful, so safe and so personal, yet you could hear all the birds still chatting away to each other.

After our long, hot days of trekking we were enjoying some great food and a few margaritas when inspiration struck. A long flight home sketching away followed by months of design development and rigorous testing, our interpretation was complete; the Cocoon.

Just like the Weaver bird, you too can hide away, sheltered and cocooned, but still in touch with your surroundings.

Take some time out and relax. Our Lullio is a perfect open-top nest for adults and kids alike. A little nest or snug for two to share allows you to chill out with a greater sense of connection to your surroundings. Kick back alone or together with a good friend to chat, read, listen to your favourite beats, watch the world go by or just snooze. Beware though, once the kids find out you won't be alone for long they'll soon take it over as their next Star Wars hover bike or to Captain the exploration ship to a parallel universe.

Reto is our new super-sized, breeze filled, beautiful hang out space. By using two rings, it's got a volume that cannot be matched and with the mesh wall you can really stay in touch with your mates and with nature.

If you find the Cacoon Reto too exposed to the elements and may be need a bit more intimacy... Ok, we have the product for you and here it is "Cacoon Domo".

Domo is big, Domo is friendly, and she is ready for you and your kids.

Domo is available in two sizes and one colour. Reto is made using our tried and tested Cacoon Poly Cotton mix, whilst Domo uses our robust, colourfast Olefin fabric. There is a huge range of accessories to complement every imaginable use.

Songo (Dream in Esperanto) is a more sophisticated take on the Cocoon. The beautiful organic shape of the twin doors blend subtly with the oval base shape affording a more elongated shape better suited to a fully reclining occupant.

Our Songo Vido or Kamelo offer air circulation and are a perfect nest for adults and kids alike a suspended bed to share with two doorways which allow you a greater sense of connection with your surroundings when settled into it. Kick back alone or together with a good friend to chat, read, listen to your favorite beats, watch the world go by or just snooze.

THE CALL FOR SIESTA

A little bit Cocoon, a little bit Kajito, with a healthy dose of classic rocking chair thrown in, meet Balance, Skal and Roko, new ways to relax.

Introducing the next generation of beautiful indoor outdoor furniture, combining the beauty of steamed wood with tensile fabric technology.

The Kurio range introduces steel into our designs for the first time and you can be sure it won't be the last. As you see we have kept our signature of soft natural curves and flexible fabric surfaces for these products. We couldn't help ourselves with Altaj; no curves, no flexible fabrics. A bit of rebellion is always fresh! She is just way too funky to resist.

**ROCK
YOUR IMAGINATION**

KAJITO

Introducing a totally new style of Deckchair. Hammocks are great but have a few drawbacks. We have never liked the heavy immovable hammock frames and we also know from our Cacoons that even a single hanging point for a chair can often be a problem.

The deck chairs or sunbeds are great too but they have not changed in 100 years. Our only view on this was that the concept could take a bit of spicing up.

Kajito, a new unique folding tensile structure, incorporates the natural shape of leaves and wings with the fabric itself. It's a great fusion of yacht rigging, bamboo furniture and fabric engineering to very comfortably kick back and relax into.

Kajito, this unique hammock style lounger stretches the possibilities of tensile structure. The fabric shape is inspired by the natural shape of leaves and wings. The structure is a fascinating fusion of yacht rigging, sail making and bamboo to provide what is possibly our most comfortable design. Forget o-60 in 15 seconds Kajito goes from a tiny storage space to massive comfort zone in the same time.

BALANCE

The Balance embraces a new way to relax. You can hang it or put it on the floor, Balance adapts to the way you want to be. Whether you want to curl up with a book, stretch out in the sunshine or rock yourself to sleep by the fire, Balance will always find the optimum position for your comfort. By shifting your position you change the point of balance giving an limitless range of relaxing positions.

Produced in ash wood, with Sunbrella water resistant fabric and delivered with it's hanging system you can also decide to buy a nice stainless steel stand. Perfect for snoozing outside or inside.

SKAL

Developed from Sea Shells found on the Danish coast the Skal is a sculpture as much as a lounger. Made from steam bent oak fastened with traditional marine fixings this stunning design offers several modes of sitting.

ROKO

Inspired by the Bauhaus School of the early 1900's we combine steel, fabric and timber in our signature curved form. The Rocking motion is enhanced by the free flying fabric seat reminiscent of a traditional deck chair but so very much more stylish and comfortable. Available in our long new Sunbrella Heritage range of fabric this chair will last a lifetime inside or out.

ALTAJ 50 & 70

Simplicity... That's the great thing about triangles. This concept has enabled us to produce many different heights, sizes and proportions combining in a sophisticated family of tables and chairs.

The Altaj range has great strength and constructional value in combination with visual simplicity. Did we forget to mention that Altaj also has a really nice springy motion? You probably guessed.

SEGO

Designed by Louise Charlier, Sego is like a bag that turns into a groundsheet that turns into a seat. No more sore backs and sore elbows when lying down or sitting in the grass. Easy to take everywhere, folded and unfolded in 10 seconds, Sego will be essential to the beach, for picnics, music festivals, fishing and more...

TAKE IT EVERYWHERE, OPEN, FOLD AND RELAX
